# Women's Health Physical Therapy in Ellicott City

Women have unique healthcare needs, so we have physical therapy treatment plans customized for Women's Health. Our tensive training and perience address a wide range of conditions.

- Osteoporosis
- Urinary incontinence
- Pelvic pain and scars
- Fecal incontinence (accidental bowel leakage)
- Post-mastectomy management and lymphedema treatments
- Pelvic organ prolapses
- Pregnancy and post-partum care (musculoskeletal pain, blocked milk ducts)

A thorough evaluation typically includes a detailed assessment of strength, posture, flexibility, and function. A treatment plan is then customized for your individual needs.

Professional women's health physical therapists are ceptionally skilled, empathetic and knowledgeable. Know your concerns are heard to manage both your medical and emotional situation.

PT  accepts most major insurances.
